The Michigan Self-Insurers' Association [MSIA] is a non-profit organization, originally organized in 1952. We are exclusively dedicated to educating employers on workers' compensation issues and perpetuation of sound and conservative self-insurance for workers' compensation.

We work hard to keep our members informed of current workers' compensation events, including information regarding legislative and judicial actions that affect self-insured employers. We freely exchange information with the goal of reducing and ultimately preventing workplace accidents and injuries.
